

Neil Kennedy User Story - Sign In(customer)

Story #	Customer signs in to company website.
As a	Customer
I want	to sign in to the company whose service I want
So that	I can view existing booked services, book a new service as well as view my history of ap pointments and edit my user details.
Acceptance Criteria	<p>given when a user attempts to login when they have an existing account then a customer should see links to view bookings / create new bookings / view booking history / edit user details</p> <p>given when a user attempts to login when they don't have an existing account then a customer should see an invalid user error and a request to sign up</p>
priority	High
effort	normal
