

# Create Booking Response

Story# [num]	Create Booking Response	Priority	High		
		Effort	1		
As a	Developer,				
I want	To create a custom Booking Response,				
So that	I can retrieve specific information from a booking in JSON format.				
Acceptance criteria	AC 1: <b>Given</b> that the current user is logged in, <b>When</b> they attempt to view their bookings, <b>Then</b> the system returns all their bookings, with each containing its Start-Date, StartTime, EndTime, Customers & Employees attending, as well the name of the Service.
