

# Add JUnit tests for Service Controller

<b>Story#</b> [num]	Add JUnit tests for Service Controller	<b>Priority</b>	High		
		<b>Effort</b>	3		
As a	Developer,				
I want	To create JUnit tests for the Service Controller,				
So that	I can tests its functionality to ensure it behaves in expected ways.				
Acceptance criteria	<p>AC 1:</p> <p><b>Given</b> that positive testing is setup for all Service Controller functionality,</p> <p><b>When</b> each test run is run,</p> <p><b>Then</b> the system will report all tests as having passed.</p> <p>AC 2:</p> <p><b>Given</b> that negative testing is setup for all Service Controller functionality,</p> <p><b>When</b> each test run is run,</p> <p><b>Then</b> the system will report all tests as having passed.</p>
