Add Employees(Admin) #User Story

Story #[num]	**Admin adds new employee record.**
As an	Admin
I want	to add employees to the system's database,
So that	I can allow employees not registered to the system to access its features.
Acceptance Criteria	AC 1: **Given** that I am an admin accessing the Employee Management page, **When** I enter a name into the 'Add Employee' field and click on the submit button, **Then** the system should add the new employee to the database, and display the new record within the page. AC 2: **Given** that I am an admin accessing the Employee Management page, **When** I neglect to enter a name in the 'Add Employee' field and click on the submit button, **Then** the Add Employee field will be highlighted in red, and a message will pop underneath asking us to input a name before submitting.
