Neil Kennedy User Story - View Bookings(customer)

Story #	Customer wants to see current bookings
As a	Customer
I want	View my current bookings
So that	I can view/edit/cancel the booking
Acceptance Criteria	**given** a customer has clicked 'view current bookings' in the dashboard **when** the customer is signed in and the customer session is still valid **then** a page displaying all current bookings is displayed **given** a customer has clicked 'view current bookings' in the dashboard **when** the customer is logged out or the session is no longer active **then** we display the main page with a session no longer active error. **given** a customer has clicked 'view current bookings' in the dashboard **when** the database is unreachable or returned an error **then** display the error on the current page with a message saying try again.
